Dear fans of American history,

Before there were political attack ads, there were attack songs!

For this 2016 Presidential election season acoustic duo **Lost Radio Rounders** have created the perfect musical/historical program. **"Politics & Patriots"** blends harmony, history and humor to both inform and entertain.

From our nation's earliest campaigns to the days of F.D.R., politicians created **"songsters,"** booklets of lyrics promoting themselves and tearing down their opponents. These lyrics were set to the melodies of classic folk songs or popular tunes of the day. **"Oh Susanna," "Auld Lang Syne," "The Battle Hymn of the Republic"** and many others lent their melodies to a candidate. **"Politics & Patriots"** shows that issues such as suffrage, abolition, and prohibition were also addressed in song.

With **"Politics & Patriots"** my **Lost Radio Rounders** pal **Michael Eck** and I remind folks that when it comes to politics, there is nothing new under the sun. Please consider booking a program for your organization!

Thanks,

Tom
